

DIY mini recipe card to cut out.

### TAKE AND MAKE: Tween Twist: Animal Crossing Keychain

## Ages 9-12

Find more projects at [ppld.org/kids/create/whats-new](http://ppld.org/kids/create/whats-new)

**Supplies Included:** Mini glass bottle, jump ring, metal eye hook, keyring, mini recipe card

**Supplies Needed (from home):** scissors, pliers, clear glue.

1. Cut out the DIY mini recipe card (there's an extra just in case). Remove the tape from the cork and discard. Take the cork out of the bottle and remove the metal eye hook and the jump ring. Place the recipe card in the bottle.
2. Screw the metal eye hook into the center of the top of the cork by hand.
3. Take the jump ring and loop it through the metal eye hook **and** the end of the key ring to connect the cork to the keyring.
4. Use pliers to close the jump ring.
5. Apply glue to the edges of the cork, and place in the bottle. Put the cork back in the bottle, pressing down to help seal the glue. Be careful since the bottle is made of glass!
